BE WELCOMED LIKE ROYALTY

Your everyday's arrivals will be nothing short of a red carpet moment at **Raamah Ellemento**.

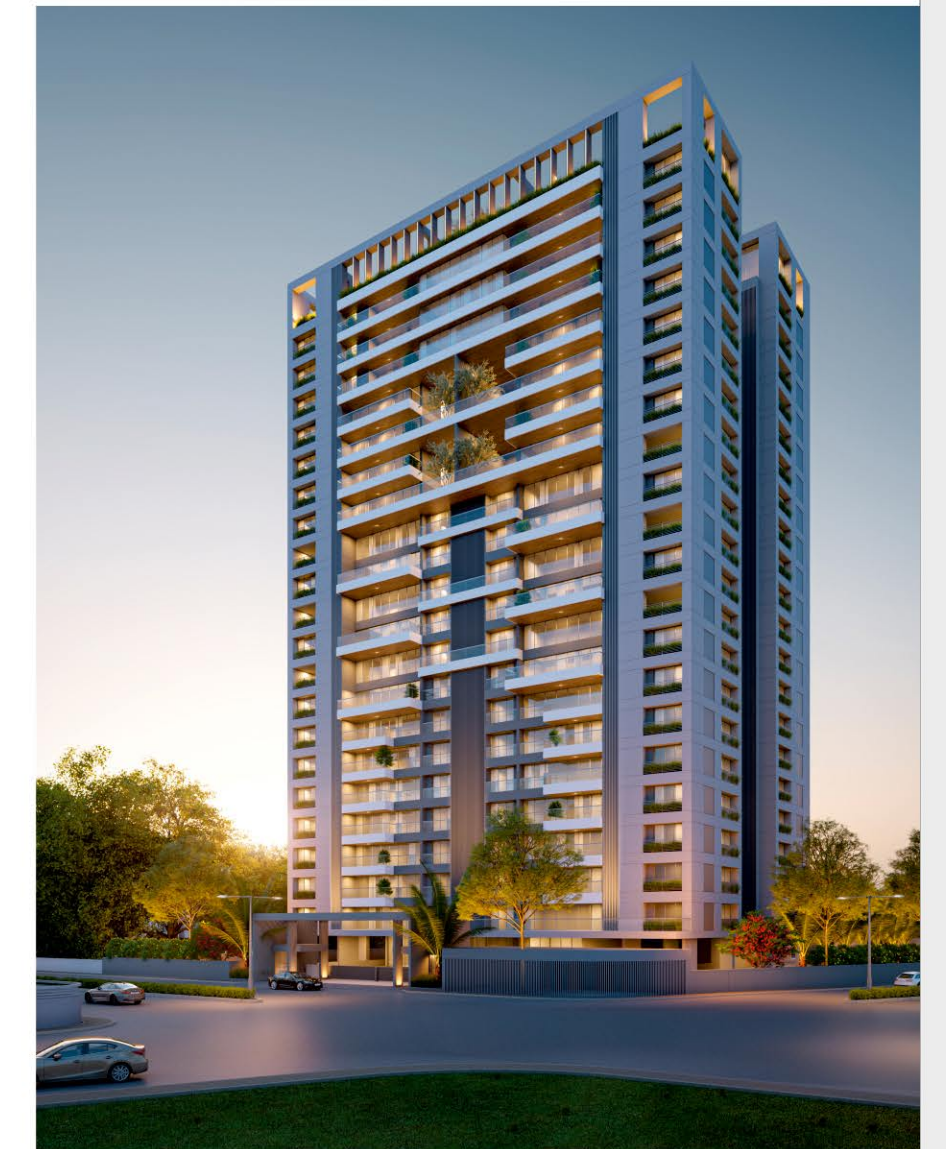

One of the firsts 20 storey apartments in the buzzing neighborhood of the city, Raamah Ellemento is a monolithic residential tower that offers multiple layout variants for 4 BHK and 5 BHK homes. The site has a picturesque surrounding and the building faces a natural lake, presenting a soothing view for the residents.

The architecture of this property is rather defined with neat lines, solid-void massing created by the balconies of various units. The staggered balconies create an interesting façade of the building. There are single storey apartment houses as well as duplex pent-houses, which offers diverse options in layout.

Pent-houses are designed in two different ways. A concept of "inverted penthouse" is introduced here wherein one enters into the upper level, and private areas lay on the lower level providing a double height terrace in the middle of the building! Another variant in the layout is designed as a single unit by combining two units on the same floor, that yields to a lavish 5 BHK unit.

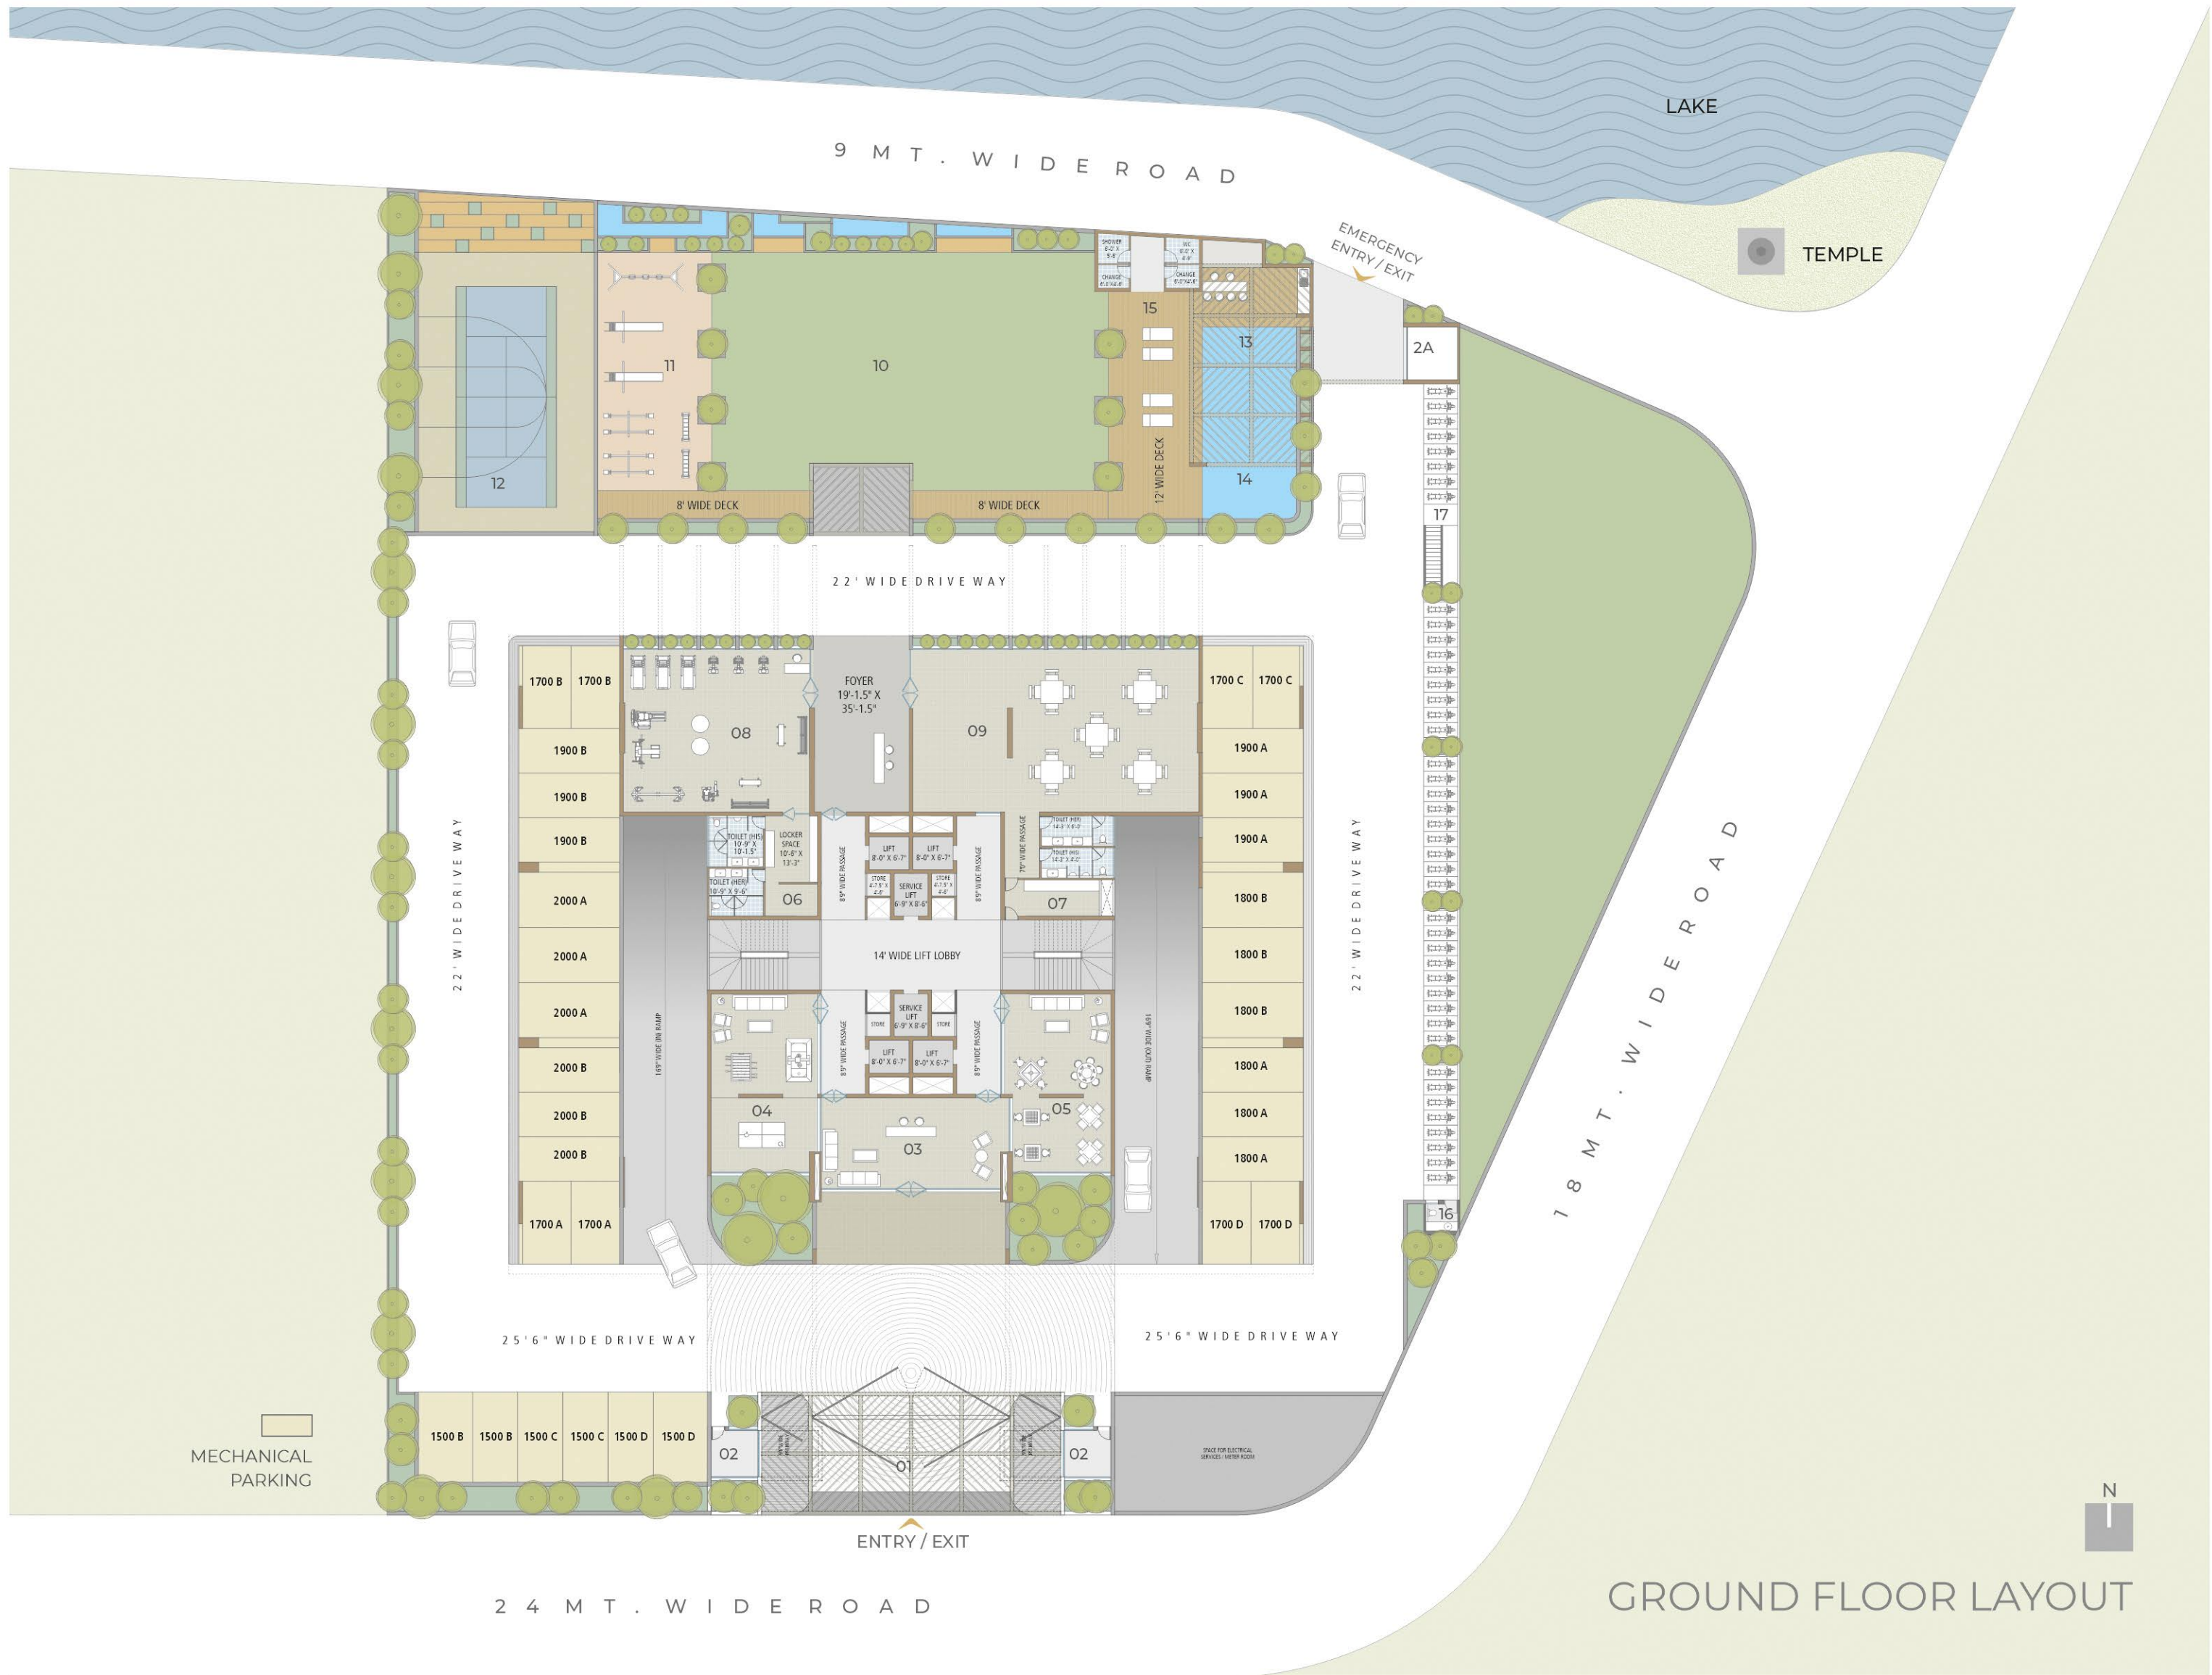

The overall campus has all the contemporary needs for modern families with a chic architectural design and planning.

BE IN THE SKY'S EMBRACE

Who needs a backyard when your balcony is practically its own kingdom? Step out and enjoy panoramic views from your slice of sky-high paradise.
